

Webinar

Globalance. Ethics for a Balanced World Post-COVID

September 1st, 2021

Organized by the Master in Ethics and Contemporary Moral Problems of the Uniminuto University and Globethics.net South America

“Unlike other years in history, 2020 stands for disruptions, crises and shifts in many sectors of society. The date symbolizes uncertainty, imbalance and world disorder, but it also stands for a push of new solutions and joint efforts.

How can we transform such disruptions and imbalances through a new dynamic world order and global balances? How can ethics contribute to this transition by a balance of values and virtues?”¹

Agenda

9:00 am - Welcome words by UNIMINUTO authority
